

Choosing Wisely Canada's Virtual National Meeting

Choosing Wisely Canada is offering a Virtual National Meeting to highlight the efforts of our community since we cannot come together in person. Now more than ever, resource stewardship is critical to help alleviate the enormous pressures on the capacity of health care systems and providers delivering vital services.

The Virtual National Meeting will bring together health professionals, patients, system leaders, and researchers from across the country to discuss and engage in topics related to overuse in health care.

Join us on **Tuesday, May 26** starting at 11 a.m. ET for our Virtual National Meeting, in collaboration with the Canadian Medical Association.

By the end of this virtual meeting, participants will be able to:

- Translate and apply best practices for reducing overuse in health care in their own clinical settings

- Design effective approaches for evaluating interventions related to reducing overuse in health care
- Develop strategies to share successful interventions across their health care organization
